Subject: Microsoft Settlement

To: US DOJ

It is time to finalize the Microsoft Settlement.

Lets not prolong this expensive Microsoft settlement any further. The actions agreed to by Microsoft, Justice Department and nine states including New York where I live, are fair and good for consumers. The other plaintiffs are just trying to gain a competitive edge by delaying the settlement.

We need to get on with strengthening the economy and one way to do this is to finalize the Microsoft Settlement by February 1, 2002.

Respectively,

Ed Riggio
